OVERVIEW

Infinity artistically displays a smooth and uniform line of light without a beginning or an end in this original design by Jose Ignacio Ballester. The contrasting combination of aluminium framework, polished chrome details and frosted polycarbonate diffuser produces a better realisation of the curves and turns which mimic the shape and movement of rhythmic ribbons. This integral LED collection produces a crisp white (3000K) light output in both pendant and flush ceiling lights as well as an impressive looped table lamp. The flush version boasts a mirror back plate which simply doubles the impact of the design. Several items are also available in dimmable versions.
