CANTO

Canto customises an original composition of materials to produce a completely unique range within the Diyas brand. Each E27 lampholder is framed by long clear acrylic pieces on the sides and smaller lengths of metal framework along the top and bottom. The open spaces allow for an optimum dispersal of light whilst the acrylic components create a more muted halo of illumination. A polished nickel finish makes the modern concept of this design more contemporary to better suit a wider variety of decorative themes.
