M7340: UV-C germicidal lamp

Adjustable Timer Function

The timer can be adjusted for 15, 30 or 60 minutes for more thorough disinfection.

Start-Up Delay

The unit has a 30 second start-up delay giving the user time to vacate the area.

Detachable Base

The lamp has a detachable base for ease of transportation and storage.

Specifications

Name: UV-C germicidal lamp

Input: 220-240V

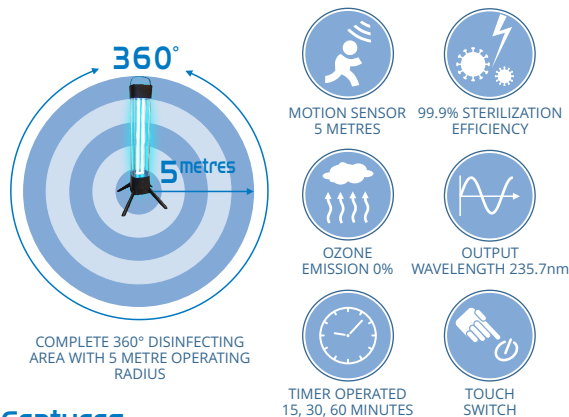

Power: 36W

Size: 93mm x 93mm x 458mm

Emits shortwave UV radiation with a maximum of 253,7 nm (UV-C) for germicidal tasks

Main material: ABS+Aluminium

Weight: 650g (with cable)

Features

Kills or inactivates bacteria, viruses and other primitive organisms

Effective for disinfection of air, water and soft/solid surfaces

Suitable for use in hospitals, food processing, pharmaceutical manufacturing and other places where a high level of sanitation is required

Touch Switch with a 30-second delay to ensure that the area is vacated prior to sterilization

Presence detector to ensure the safety of people and pets.

CAUTION

UV RADIATION HAZARD

Use only with shielding in place.
Protect eyes & skin from exposure to UV light.

TUV PL-L 36W/4P ICT/25

Low pressure mercury vapour discharge lamp included

TUV PL-L lamps are compact UVC (germicidal) lamps used in residential water and air disinfection units. The compact size of the lamp allows for a small system design and design flexibility. TUV PL-L lamps offer constant UV output over their complete lifetime, for maximum security of disinfection and high system efficacy. Thanks to the single-ended lamp base, lamp replacement is easy.

PHILIPS

General Information

Cap base: 2G11

Main application: Disinfection

Useful life (nom.): 9000 h

Light Technical

Colour Code: TUV

Depreciation at useful lifetime: 15%

Operating and Electrical

Power (Rated) (nom): 36 W

Lamp current (nom): 0.44 A

Voltage (nom): 105 V

Mechanical and Housing

Cap-base information 4 Pins (4P)

UV

UV-C Radiation at 100 hr 12.0 W

Warnings & Safety

- A lamp breaking is extremely unlikely to have any impact on our health. If a lamp breaks, ventilate the room for 30 minutes and remove the parts, preferably with gloves. Put them in a sealed plastic bag and take it to your local waste facilities for recycling. Do not use a vacuum cleaner.
- DANGER: Risk Group 3 Ultra Violet product. These lamps emit high-power UV radiation that can cause severe injury to skin and eyes. Avoid eye and skin exposure to unshielded product. Use only in an enclosed environment which shields users from the radiation.
